

# FOUNDATION TOTAÍ UPDATE

## JANUARY – MARCH 2022

From the 10<sup>th</sup> – 12<sup>th</sup> January, the rheumatology campaign was carried out, benefiting more than 20 patients, who have rheumatological problems. The patients were mainly elderly people with osteoarthritis, arthritis and osteoporosis. We thank Dr. Beatriz Rodríguez, a Cuban doctor, for running this campaign

For World Hearing on the 3<sup>rd</sup> March, a campaign was carried out to check and clean ears, and perform audiological tests, in order to raise awareness of hearing care and prevent deafness. We had a large influx of people, mainly children and young people.

Our health team travelled to the the town of San Borja, 233 km away from our city, to perform ear otoscopy and audiological tests with the residents of that town. They were very grateful to our staff and the institution for having gone there, as there were many people with earache problems.

# SPORTS

With great joy and enthusiasm, in the month of January, we started the activities of the sports area with the soccer school. There are high hopes, mainly from the girls, to achieve many successes this year in the different championships in which they will participate.

New soccer jerseys were made for each of our training groups. The designs include the names of the players and the Fundación Totáí logo. Our athletes were delighted with their new look!

# COMMUNITY

We started a basic sign language course for the children in our community, with the aim of communicating effectively with deaf people. There is a lot of hope and acceptance on the part of the parents, and our children are showing great enthusiasm about learning a new language.

One of the new activities scheduled for this year by the community area is craft classes for our teenagers. The goal is to develop their creative potential and skills. They were very happy to learn about this new activity.

# PRAYER REQUESTS

For the safety of medical personnel, travelling on the roads in more remote areas, using their skills to benefit those that cannot afford medical care, and doing it in the name of Jesus Christ

For the seeds of the Word of God to be sown through the Bible studies led by the sports coaches

For the community ministries supporting women and young people in their spiritual development and education. Pray especially for the new sign language course, and that young people with special needs are open to the Good News of Jesus.
