 ACKNOWLEDGEMENTS & PRAYER REQUESTS

Dear brothers and sisters in Christ, friends and donors of Fundación Totalí. It is a pleasure for me to present the Annual Report for 2021. Despite the difficulties we have gone through these last 2 years, we want to thank everyone who has collaborated with us for many years.

Despite the extraordinary situation that we are experiencing due to the covid-19 pandemic, full of uncertainty, pain, and a conditioned daily reality, we have continued to work in support of the people that are most in need in our department of Beni, in the areas of health, sports and community, following the gospel of our Lord Jesus Christ.

This year we have wanted to support people who have very limited access to healthcare, and for this reason our activities were directed to the population of the rural areas of our department, providing them with free medical attention and medicines.

Something that fills us with great satisfaction is having served as a support to the children of our community during the pandemic, setting up a virtual classroom for them to do their online school classes. In the sports area, we continued to work with our football school. Playing football served to give a breath of freedom and distraction to our children and young people, who had spent almost an entire year in lockdown, due to the pandemic. We also helped 20 families with different types of support.

In the following pages you will see what was achieved this year, through data and testimonials. But, if the memory is usually a mere approximation to what has been experienced, on this occasion it records the effort that everything done is thanks to the commitment of the professional team and volunteers of Fundación Totalí. Our special thanks to you, for the firm support you have always given us, for having trusted in us and contributed to making our work possible. I reiterate my gratitude to you, our brothers and sisters, and donors. With affection of always,

Dr. Miguel Ángel Arauz Durán
President of the Board

Fundación Totalí is a non-governmental, non-profit organisation, founded in 2004, formed by a group of multidisciplinary workers, who share the gospel of Jesus Christ through quality services in the areas of health, education and sports, to improve the living conditions of the community in general.

VISION

“To announce the Good News of Jesus Christ, provide low cost services for the community, and to form workers with integrity”

MISSION

“To be an organisation that operates in a professional, competent and honest way, with dignity for the users”

Our Values ● ●

- Christian Faith
- Low Cost Healthcare
- Universal Education
- Enriching Culture
- Peace among the people
- Organised and Efficient Support
- Workers with Integrity
- Equality for all

“We play the important role of early detection of hearing deficit”.

459 neonatal evaluations were carried out on children from 0 to 1 year of age, This activity was carried out at the local Maternity & Children’s Hospital in our city, and at the following health centres – 12th April, Santa Rosa, Pedro Marban, San Vicente & San Ramon

671 school screenings were carried out on children in the educational units: Martha Hurtado, Leche y Miel, Evangélico Cuatro, Camiaco and Villa Banzer. These screenings consisted of medical and ear examinations, in order to detect hearing problems early. Teachers and parents thanked Fundación Totalí for its great supportive spirit and concern for the health of the community. This activity was carried out in those educational units with blended classes.

HEALTHCARE

A total of **566** consultations were carried out in 8 localities in the rural area of our department, where medical care in general medicine, ear check-ups, audiological tests and medication was provided free of charge. The villagers were very grateful to our institution as they have very little access to health.

EAR AND HEARING CARE CAMPAIGNS IN OUR CITY

During this year we decided to reach out to institutions that we had not previously visited with our Hearing Health Programme, with the purpose of preventing hearing deficit, mainly in the younger population and in vulnerable sectors of the community, such as the elderly. 871 people benefitted from hearing check-ups, medical care, and free audiological tests.

OTHER HEALTH CAMPAIGNS

DENTISTRY CAMPAIGN – THIRD MOLAR EXTRACTION

Thanks to Dr. Marco Ramallo - Maxillofacial Surgeon, we provided care to more than 12 people - patients who previously could not find anyone to perform these surgeries in our city.

PAIN TREATMENT CAMPAIGN

Thanks to Dr. Javier Michel - Anesthesiologist, we provided care to more than 10 people who suffered from chronic cancer pain, neuropathic pain and post-surgery fractures.

GYNAECOLOGY & OBSTETRICS CAMPAIGN

Thanks to Dra. Claudia Jiménez - Gynaecologist, we supported more than 20 women with problems of uterine cancer, menopause and pregnancy control.

EYE TESTS - GLASSES

In coordination with the Optician 'Clarify your Vision' from the city of Santa Cruz, a campaign to assess patients' vision was organized, with free eye examinations, and the offer of glasses at a very low price. Many people benefited from glasses at affordable prices.

462 people were trained in ear and hearing care, so that they have the necessary knowledge to detect hearing problems early. These training sessions were aimed at parents, teachers, medical students and health professionals in our department.

COMMUNITY & EDUCATION

This year was marked by blended in-person and online classes, due to Covid-19. This situation highlighted the low educational level of our children, so we strived to give them a higher level of school support, especially in the subjects of mathematics, comprehensive reading, research and support in the tasks entrusted by their teachers, in printing of homework activities and materials.

Due to Covid-19, the Bible education classes were divided into 2 groups, with 18 children in each class, using the material - "Children of the Bible and Adventures of Faith with Moses and Joshua", where they learned about obedience and worshipping God. The children love singing and they have learnt lots of worship songs with choreographed actions during the year.

Thanks to the initiative and creativity of our teacher Carla Camader, this year we implemented new craft classes, where the children learned to do different types of craft projects, and develop their artistic skills.

There were also various activities, such as incentives for winning teams in different competitions that they organized.

COMMUNITY & EDUCATION

The greatest satisfaction, as an organization which provides services to the local community who are most in need of support, was to set up a virtual classroom for school classes, with state-of-the-art tablets and stable internet. This allowed our children to participate in their virtual classes, and to carry out their homework tasks and research. We want to convey our immense gratitude to those who supported this project.

A group of women from the local area attended weekly arts and crafts classes on Saturday afternoons. The items they made were promoted in different local craft fairs, where they were able to sell their crafts, to generate economic resources to help support their families

STATISTICS

Bible Education

14 children per class

132 classes

Homework Support

5 children per class

68 classes

25 classes

Crafts

10 women

68 classes

Virtual Classes

4 children per class

5 days

Special Afternoons

18 children per afternoon session

SPORTS

This year was marked by the massive attendance of girls and boys at the football school; with an average of 70 children at each session, which allowed us to participate in categories for children aged 6, 8, 10, 11, 13 and 14 years old, in the Municipal Football Championship.

With a lot of effort, dedication and support from parents, the municipal 5-a-side championship concluded on 10th December. The boys' teams in category 11 and 14 won third place and the girls team in category 10 won second place.

40 families of the children at the football school were visited by our coaches. They were able to talk to parents and encourage them to support their children. The coaches also shared the Word of God with them, and encouraged them to renew their faith in Christ, and attend churches near their neighbourhoods.

SPORTS

We had a magnificent holiday club from the 3rd -17th December, called "Exploring the Good News of Jesus Christ This Christmas" This was organized in conjunction with El Jireh Church and Fundación Totalá. A total of 80 children, between 4 and 10 years old, regularly attended. We are very grateful to all the leaders and volunteers who organized this event and shared the good news of God's love and Jesus' birth with the children, through the teaching, worship and craft activities.

Thanks to the support of a special donation of financial resources raised by Estrellas Brillantes Spanish Classes, organised by Rachel Peebles, the following support could be provided:

- Purchase of dirt to raise the ground level of the home of the Andrade Herrera Family.
- ID card for 3 children in the Villarroel Apomaita family.
- Reconnection of home electricity – Gualasua Muiba family
- Provision and delivery of food packages to 20 families.
- Purchase of sports shoes for 20 children.

I thought I was not going to hear anymore, but when I found out that the doctors were coming to do ear check-ups, I got up early to come and see them. After they took those things out of my ears, I can hear well again. I thank you for coming.

Facundo Muiba
Resident of Camiaco (70 years old)

Felicia arrived at the Children's Home when she was 14 months old. She had suffered physical violence from her maternal grandmother and we were scared because it seemed that she couldn't hear and she had bleeding in one of her ears. We asked for help from Fundación Totái so that they could come and assess her hearing. Without hesitation they visited us as an urgent case, without charging us anything. Fortunately the little girl does not have hearing problems. I want to thank everyone who works here in this institution for their professionalism and above all else, for the vocation that they have to support people with limited resources.

Lic. Roxana Melgar
Nurse at the Children's Home – Social Work Department

For us it was a joy that you came to our community. Most of the inhabitants have ear problems, because of our climate and the waters of the Ibáre river. We feel grateful to the institution for the medical consultations and medicines that you brought us, and we hope that you will always come to these towns and villages, because we need support

Carla Añez
Resident of Puerto Ballivián

Some time ago my ear started hurting and I became deaf in my right ear. Neighbours told me to go and see some doctors who were coming from Trinidad. I arrived early to be one of the first patients. The doctor checked my ears and I had an infection in my ear. She gave me medicines so that I could be cured. I hope they come back again and I thank them for coming to help us.

Hortensia Socuno
Resident of Puerto Varador (age 72)

PERSONAL STORIES

This teenager is 14 years old and she has been attending the community classes since 2019, where she is supported with guidance in completing her homework tasks, investigative work, flipcharts, presentations, etc. Despite her difficulty getting around, due to her spinal scoliosis, Nicol has always been involved in all the activities of the community area and she was even chosen as the captain of her team, as she was responsible for taking attendance and overseeing the work the children were doing. She was outstanding in the bible knowledge contests. She is currently in Spain to undergo different surgeries.

Carla Camader
Community Class Teacher

"I'm sad to leave my friends and my teacher Carla, but when I return from Spain cured, I'm going to come back to the classes. Here I felt good. Nobody marginalized me or made fun of me for my disability, and I made lots of friends. My teacher helped me a lot with the homework that they gave me at my school and I'm going to miss everyone a lot."

Nicol Ribera
Student in the community class
(age 14)

María José Rojas Brito is a deaf girl of 9 years of age. She was attending the community classes with her older sister Victoria. María José, despite her hearing disability, had the enthusiasm to attend classes and to be able to get involved in all activities, and she was able to communicate through her sister Victoria. The other children tried to help her and make her feel welcome. Our community class teacher, Carla, who has basic knowledge of sign language, supports her with her school homework

"As a mum, I feel very happy to see my daughter with such enthusiasm when 2pm in the afternoon arrives, when it's time to go to the community classes. Although she is deaf, you can see the joy she has when she is with the other children. Fundación Totalí, through the community classes, has given her the opportunity to have a social life with the other children who attend. The teacher is teaching her some new ways to communicate and that makes me feel very happy. I am so grateful to the foundation for all the work that they do with the children in the neighbourhood"

Raquel Brito
María José's mum (age 48)

PERSONAL STORIES

"For more than 10 days I had awful toothache, so I asked my mom to talk to my coach Savarain Oniava, so he could help us. He took us to the foundation and the dentist took my tooth out and gave me medication. I'm much better and in a few more days I will be able to go back to train football with the children."

*Luis M. Chambi (10 years old)
Child from the football school*

The Gualasua Muiba family, lived for 2 years without electricity, in a very precarious house in the neighborhood Las Brisas (north of our city) - a very humble family of 7 members – Gabriel (age 5), Gabriela (age 7) and Maribel (age 12) have been part of our football school for 2 years.

The dedication and optimism that they display when they attend training sessions encouraged our coach San to visit their home, where he saw their need. They were selected to receive support to pay 8 months of debt to the energy supply company, and reconnection of the electrical installation to the house.

"We had a TV, but we could not watch it because we didn't have electricity. Now we will be able to watch television and do our homework at night. Thank you very much to those who helped us."

Maribel Gualasua (age 12)
Part of our football school team

The Bejarano Muiba family (6 members) - Villa Victoria area, benefited from 4 metal roof sheets, that served to roof part of their humble wooden house. Mateo, 8 years old, is a player at our football school, who has shown a lot of dedication in all the training sessions.

"Every time it rained, water came through the leaks that the roof had and wet our bed. Now we are not going to have that problem, We really want to thank you so much for everything you do."
(Juan Bejarano – Mateo's Father)

HUMAN RESOURCES

At the end of 2021, there were 23 people who were supporting the work of FT (16 employees, 4 workers on contracts, ad 3 volunteers)

ACKNOWLEDGEMENTS

- For the prayers of our supporters, and brothers and sisters in the UK, who encourage us to keep moving forward.
- For the support of our generous donors, in their continuing support of FT. It is very much appreciated, especially in a year as difficult as the previous one for our country, city and our organisation, due to Covid-19.
- For the collaboration of the authorities and other agencies and people, who this year supported us in different activities carried out by the health, community and sports areas.
- To the staff of the FT, for all their effort and dedication.

PRAYER REQUESTS

- For our beloved sponsors. May the Lord bless your lives and those of your families.
- For the spiritual and physical health of FT workers and their families, especially those who fell ill.
- For the economic and financial situation of the foundation.
- We entrust our mind, spirit and our hearts, and all of our planned activities for 2022 into God's hands
